INVITATION FOR BIDS

Date	06-August-2020
Contract No	BID NO. SAM EPC TIAP – 06 / 2020 “Tiapapata Small Hydro Power Station”
Deadline for Bids	14-September-2020

1. The Electric Power Corporation, on behalf of Government of Samoa is funding the new hydro project from its Annual Capital Expenditure. This will fund all payments under the Contract. International Bidding is open to bidders from all eligible countries.
2. Samoa Electric Power Corporation on behalf of Government of Samoa (“the Principal”) invites sealed bids from qualified and experienced bidders for the design, construction, installation, rehabilitation, testing and commission of the new Tiapapata Small Hydro Power Plant. The scope of works will comprise construction of intake, pipeline and penstock, access roads, head ponds and equipment, power station and installation of electrical mechanical generating plant and appurtenant equipment, connection of EPC 22kV electric system, and rehabilitation of extra storage at Alaoa Hydro Headpond. The Facilities are all located on the island of Upolu, Samoa, close to the capital Apia.
3. The bidders’ main qualification criteria are:
 - a) Primary bidder shall be a civil contractor with extensive experiences in small hydro development which include design and construction and have successfully completed similar projects.
 - b) Minimum average annual turnover of US\$3.0 million.
 - c) Cash-flow requirement, US\$1.0 million, and the overall cash flow requirements for this contract and its current works commitment.
 - d) Experience under contracts in the role of contractor, subcontractor, or management contractor for at least the last five (5) years prior to the bid submission deadline.
 - e) Participation as contractor, management contractor, or subcontractor, in at least two (2) contracts within the last five (5) years, each with a value of at least US\$3.0 million that have been successfully or are substantially completed and that are similar to the proposed plant and services. The similarity shall be based on the physical size, complexity, methods, technology or other characteristics as described in Section 6 (Employer’s Requirements).
 - f) Successful completion of analysis and design and construction of small and medium size hydro power plants.
 - g) Successful completion of design and analysis of at least 1 (one) penstock installation project similar in size to that proposed.
 - h) Successful completion of construction of at least 1 (one) concrete weir structure, screen and intake similar in size to that proposed.
 - i) Successful completion of manufacture, supply, installation, testing and commissioning of penstock similar in size to that proposed.
 - j) Successful completion of the design, manufacture, supply and installation of the refurbishment of turbines and generators for a project similar in size to that proposed.
 - k) Successful completion of the design, manufacture, supply and installation, testing and commissioning of Control/Protection system for a project similar in size to that proposed.
 - l) Other requirements for construction experience in key activities are contained in Section 3 of the Bidding Documents.
 - m) Primary bidder shall be a civil contractor with extension experience in design and construction of run of river hydro plants and have successfully completed similar project in the last 5 years. A project management contractor that outsource civil work and other work shall not be considered.

4. International Competitive Bidding will be conducted in accordance with Ministry of Finance of the Samoa Government Single-Envelope Bidding procedure and is open to all Bidders from eligible countries as described in the Bidding Document.
