

## **SAA/GO/002 1 Supply and Installation of Goods for “Automated Weather Station (AWS)”**

### **CLARIFICATION ISSUE 03**

**17 November 2023**

**I. CLARIFICATIONS TO QUESTIONS RAISED BY BIDDERS**

| <b>Item Ref.</b> | <b>Questions Raised</b>   | <b>SAA/SARIP Answers</b>  |                 |                             |             |   |                         |   |   |  |   |   |   |   |   |                              |   |   |               |   |   |                          |   |    |                    |   |
|------------------|---|---|-----------------|-----------------------------|-------------|---|-------------------------|---|---|--|---|---|---|---|---|------------------------------|---|---|---------------|---|---|--------------------------|---|----|--------------------|---|
| <b>1</b>         | Regarding the software, is it necessary for the software to generate any specific ICAO message format, such as AFTN or ATIS messages? | <i>The AWOS software shall allow for the ICAO compliant meteorological data to be used as an input to other systems such as AFTN and ATIS. Extracting the required data for these systems can be through third party software. The AWOS system must provide ICAO compliant data</i>   |                 |                             |             |   |                         |   |   |  |   |   |   |   |   |                              |   |   |               |   |   |                          |   |    |                    |   |
| <b>2</b>         | Kindly request technical information regarding the following items found in Section 3 – Price and Delivery Schedule – Spare Parts     | <p><i>The listed items are spare hardware units for the system provided by the respondent in Section 3, AWS Supply &amp; Installation. Where the proposed design does not use the items listed below, the respondent shall specify the equivalent items based on their proposed AWS system</i></p> <table border="1"> <thead> <tr> <th><b>Item No.</b></th> <th><b>Description of Goods</b></th> <th><b>Qty.</b></th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Interface UHF/VHF radio</td> <td>1</td> </tr> <tr> <td>5</td> <td>Sensor Support Top, one wind sensor (Red colour)</td> <td>2</td> </tr> <tr> <td>6</td> <td>Radio Modem Enclosure for Central Site B1F1NNBA</td> <td>1</td> </tr> <tr> <td>7</td> <td>Interface for 2 radio modems</td> <td>1</td> </tr> <tr> <td>8</td> <td>Device Server</td> <td>1</td> </tr> <tr> <td>9</td> <td>Ethernet Surge Protector</td> <td>2</td> </tr> <tr> <td>10</td> <td>Wind Panel Display</td> <td>1</td> </tr> </tbody> </table> | <b>Item No.</b> | <b>Description of Goods</b> | <b>Qty.</b> | 1 | Interface UHF/VHF radio | 1 | 5 | Sensor Support Top, one wind sensor (Red colour) | 2 | 6 | Radio Modem Enclosure for Central Site B1F1NNBA | 1 | 7 | Interface for 2 radio modems | 1 | 8 | Device Server | 1 | 9 | Ethernet Surge Protector | 2 | 10 | Wind Panel Display | 1 |
